

JOIN US IN OCTOBER FOR A SPECIAL GUEST SPEAKER - DR DEAN KASHIWAGI

Join us for a presentation by Dr. Dean Kashiwagi on Supply Chain Management in the Age of Information and Automation. Information systems, automation and robotics are infiltrating every sector of the supply chain in our “information world”. The supply chain professionals must adapt to the new age of information and automation. Dr. Dean proposes the only way for the “Supply Chain Professional of the Future” to do this is by identifying and utilizing expertise to cut cost and dominantly increase performance. The new way is called the Best Value Approach. [CLICK HERE](#) TO REGISTER FOR THIS EVENT
